

# OYSTER UPDATE Y5

The white feather.

Term 1

On the 10<sup>th</sup> of October we went on a visit to Swansea Museum, the Waterfront Museum and The Dylan Thomas Theatre. In the Waterfront Museum, we looked at replicas of things from WW1, we smelt some small plastic boxes they smelt disgusting!!!

We went to see the white feather. It was absolutley brilliant! It was quite emotianal. It was all about WW1. We enjoyed it very much.

Big pit

On the 11th of October we went on a visit to big pit mining museum in Wales. When we first arrived there we went down the actual mine its self!!It was really fun when we went down the mine because the man there told us to turn of our headtorches an d it was as dark as black ink. When we came back up the mine shaft we went and had our lunch and then,we did a history detective workshop

Science Lecture Y5

At the Swansea University we watched a science lecture by a man who studied at the university. We saw lots of really cool experiments, one was extra cool because we turned the lights off and some people from another school came out front and poured a chemicle into another chemicle and it LIGHTED UP!!!!!!

XL Wales

One monday a lady from xl wales came in to do a workshop on forces. In the workshop we built cars using k nex and we used magnets to move them. The forces we used where magnetic force,air resistance and gravitational pull.We tested the friction of the carpet and the wooden floor .We stacked benches on top of each other and tested the gravity around us and added a sail A.K.A piece of paper and we blew against it and tried to make it move. Success!
